

Just A Song

0026

Victor M. Barba

Can you play this song?

If you can play this song, just go to the next song.

You can move on faster, that's fine.

If you can not play this song, practice more until you can actually play the song perfect and with no mistakes.

LESSON 0010

Here you can see 3 measures(You should know what is a measure)

- 1) 2 quarter notes and a half note
- 2) 4 quarter notes
- 3) 1 whole note

Each measure must have 4 counts(Why?)(I will tell you later)

Four counts on each measure.

A quarter note(The note with a little black head and a little vertical line)(A)
last 1 count each.

So you have

measure 1 | measure 2 | measure 3 |
1+1+2 | 1+1+1+1 | 4 |

Each measure is 4 counts long.

Can you play this song? YES! or NO!
